Hello Everyone,

We just wanted to thank everyone who attended at least one of our 2017 summer camps! It was an unbelievable summer and our best summer yet. We feel blessed to be able to work with all of our campers helping them elevate their game whether it is with their footwork, shooting technique, ball handling, post game or just improving their overall game. We hope you stay in touch with us and let us know how your season goes. If you ever need anything from us please let us know we are always an email or text away. Thank you for all your hard work and remember it is not what we know it is what you took away. Take what you learned and apply it to your game. Have a great August and keep elevating your game.

Thank you,

Brian Butch, Coach Flora & the rest of the Brian Butch Basketball staff
Nothing good is easy.
Nothing easy is good.

Triangle Shooting Drill Work

Can place the cones wherever you would like on the court depending on where you want to shoot. Starts with a shot then backpedal around a cone cut back to starting spot for a shot. Then backpedal around the other cone and back to starting spot. Can go for a certain amount of time or certain number of makes.

The more concerned we become with the things we can’t control, the less we will do with the things we can.

- Jordan Spieth
Leadership is a transfer of belief.

“The best coaches and players own their own growth. It is hard to skip the daily steps and end up being successful in the long run.”
— Chris Holtmann

SAN FRANCISCO

4 Up Sets

4 loops over the top of 3 & 5. 5 pops

2017 APPLETON CAMPS
What kills a player’s potential?

1. Low pain threshold
2. Low basketball IQ
3. Selfishness
4. Can the player do the intangibles (charges, loose balls, etc)
5. Drugs & Alcohol
